“A Conversation with Alan Mulally”
Retired President and CEO, Ford Motor Company

Presented by Moss Adams LLP
Alan Mulally served as president and CEO of The Ford Motor Company and as a member of Ford’s board of directors from September 2006 to June 2014. Mulally led Ford’s transformation into one of the world’s leading automobile companies and the #1 automobile brand in the United States. He guided Ford in working together on a compelling vision, comprehensive strategy and implementation of the One Ford plan to deliver profitable growth for all of the company’s stakeholders. Prior to joining Ford, Mulally served as EVP of the Boeing Company, president and CEO of Boeing Commercial Airplanes, and president of Boeing information, Space and Defense Systems.

Throughout his career, Mulally has been recognized for his contributions, industry leadership, and service, including being named #3 on Fortune’s “World’s Greatest Leaders,” one of the 30 “World’s Best CEO’s” by Barrons’ magazine, one of “The World’s Most Influential People” by Time magazine, and “Chief Executive of the Year” by Chief Executive magazine. He was also honored with the American Society for Quality’s medal for excellence in executive leadership, the Automotive Executive of the Year, and the Thomas Edison Achievement Award. Mulally is a Museum of Flight Pathfinder and a member of the Automobile Hall of Fame.

Mulally previously served on President Obama’s United States Export Council. He served as co-chairman of the Washington Competitiveness Council, and has served on the advisory boards of the National Aeronautics and Space Administration, the University of Washington, the University of Kansas, the Massachusetts Institute of Technology and the United States Air Force Scientific Advisory Board. Mulally has also served as President of the American Institute of Aeronautics and Astronautics and as Chairman of the Board of Governors of the Aerospace Industries Association. Mulally is a member of the United States National Academy of Engineering and a fellow of England’s Royal Academy of Engineering.

Mulally currently serves on the board of directors of Google, Carbon 3D, and the Mayo Clinic. Mulally holds Bachelor and Master of Science degrees in Aeronautical and Astronautical Engineering from the University of Kansas, and a Masters in Management from the Massachusetts Institute of Technology as an Alfred P. Sloan Fellow.

Western’s Commitment to Student Success

Western is redoubling its commitment to Student Success. We want the very best achievement opportunities for all our students, including those who might come from marginalized family or community backgrounds where financial and emotional support for a college education is often lacking. Your financial support in critical areas can and will make the difference in the young lives of our students, and for future positive impact of our communities, state and the world.
